

Waa maxay dhakaakuhu (autism)?

1. Waa maxay dhakaakuhu (autism)?

Dhakaakuhu waa xaadalad cimri dherer ah ama nolosha oo dhan lagu jiro oo beddesha habka maskaxdu u korto ayna u shaqayso.

2. Maxaa keena dhakaakaha?

Khuburrada intooda ugu badan ayaa u arka in aanay jirin sabab keliya oo keenta ama dhalisa dhakaakaha, waxuuna mararka qaar ka iman karaa hiddesideyaasha. Waxuu bilaabmaa ka hor inta uusan ilmuu dhalanin, xataa haddii ay xoogaa sano ku qaadato si loogu arko. Dhakaakuhu KAMA yimaaddo waalidnimada xun, tallaallada, caabuqyada ama jeermisyada, cuntada la cuno ama ma hadhda.

3. Miyuu bogsiin leeyahay?

Maya, bogsiin ma leh oo lama wada daawayn karo, oo bogsiin uma baahna. Daacad ma aha daawaynta kaste lagu sheego in ay bogsiin u tahay.

4. Cidma ayaa dhakaake yeelan karta?

Waxaa dhakaake yeelan kara dadka ah jinsi kaste, midab kastoo harag, dhaqan kaste, asal kaste, diin kaste.

5. Miyay suurogal tahay in “laga koro” dhakaakaha?

Maya, waayaha ama dhacdooyinka soo mara dadka dhakaakaha leh iyo kartiyahooda ayaa is beddeli kara inta ay nool yihiin, sida qof walba, laakiin waxay weligood yeelan doonaan dhakaakaha. Dhakaakuhu waxuu qayb muhiim ah ku leeyahay aqoonsiga dadka ama cidda ay yihiin.

6. Maxay samayn karaan dadka dhakaakaha leh?

Dadka dhakaakaha leh waxyabo aad u fican ayay samayn karaan, sida dadka aanan dhakaakaha lahayn. Waxaa laga yaabaa uun in ay waxyabaha qaarkood si ka duwan u sameeyaan.

Kula hadalka 2 luqadood (ama ka badan!) ilmahaaga?
